St. Ignatius of Loyola, founder of the Society of Jesus, 1540

Earlier this year, Fr. General Arturo Sosa, SJ articulated four **Universal Apostolic Preferences** of the Society of Jesus. These Preferences guide the Jesuit mission to share the Spiritual Exercises as a way of discernment and encountering God, to accompany the vulnerable and disadvantaged, to accompany the young in the creation of a hope-filled future, and to worship the creative work of God by promoting systems of sustainable development that benefit all.

Through Magis Productions, and with the support of the Heider Endowed Chair, Fr. Don Doll, S.J. has traveled throughout the world documenting the works of fellow Jesuits that emulate these Preferences.
